Greenspiration! This is a 9 days long

design and sustainability, and create  
everything what you always wanted to  
create! In this brochure You find all  
the information about the program  
and how to apply.**

**This program is organized by Blue Monkey  
Association and it is financed by the  
Erasmus+ programme**

## **What is it?**

**GreenspiratiON is a 9 days long youth exchange in the topic of creativity, design, up-cycling and sustainability. The exchange is for 30 young people coming from 6 different countries: Romania, Hungary, Portugal, Italy, Greece and Bulgaria.**

**This is a non-formal educational program where together with young people from other countries You have the chance to exchange best practices and various techniques of up-cycling and recycling.**

**While creating together, testing different simple and creative up-cycling techniques, you learn about the environment, about re-usable materials, and you develop a "new eye" to look at these materials as opportunities for something new. The objects you create will be unique, designed, recycled, useful and they will carry-on the concept of creative recycling.**

**We are going to work with simple household waste materials such as paper, plastic, tetra pack, textile, wood, etc. Up-cycling and creating includes everyone, no matter of age, gender, residency or previous experience - with a bit of care and attention we can all take the first steps towards a more sustainable life where waste is a precious resource for creation!**
